

|  | FRIDAY October 20, 2006   | SATURDAY October 21, 2006  | SUNDAY October 22, 2006   | MONDAY October 23, 2006   | TUESDAY October 24, 2006   |
|--|---|--|---|---|--|
| <b>08.00-08.30</b><br><b>ANATOMY</b>                           | Cranial nerves I - VI<br><i>T.P. Naidich</i>                              | Cranial nerves VII - VIII<br><i>T.P. Naidich</i>                         | Cranial nerves IX - XII<br><i>T.P. Naidich</i>  | Sella region<br><i>T.P. Naidich</i>   | Cavernous sinus<br><i>T.P. Naidich</i>                                     |
| <b>08.30-09.15</b>   | Development of the central nervous system<br><i>H. Etchevers</i>          | Skull base anatomy and embryology<br><i>T. Yoursry</i>                   | General guidelines for interpreting CTs<br><i>P. Griffiths</i>                              | General guidelines for interpreting MRIs<br><i>H. Urbach</i>                                | Guidelines for interpreting diffusion-weighted images<br><i>P. Parizel</i> |
| <b>09.15-10.00</b>   | Fetal anatomy and brain development<br><i>T. Huisman</i>                  | Developmental anomalies of the ventricular system<br><i>P. Griffiths</i> | Temporal lobe malformations and pathologies<br><i>T. Yoursry</i>                            | Anatomy of the spinal cord; vascular supply<br><i>G. Rodesch</i>                            | Fetal acquired syndromes<br><i>T. Huisman</i>                              |
| <b>10.30-11.00</b>   | DWI / Tractography of the normal brain<br><i>S. Sunaert</i>               | CSF dynamics<br><i>O.Flodmark</i>  | Temporal bone malformations<br><i>J. Casselman</i>  | Imaging of the spine: technique, artefacts, pitfalls (CT and MR)<br><i>G. Rodesch</i>       | Standards in CT angiography<br><i>S. Wetzel</i>                            |
| <b>11.00-11.30</b>   | Circle of Willis; dangerous vessels<br><i>P. Lasjaunias</i>               | DTI and DWI of the developing brain<br><i>S. Sunaert</i>                 | Neurocutaneous syndrome<br><i>P. Tortori-Donati</i>   | Embryology and congenital disorder of the spine and spinal cord<br><i>P. Tortori-Donati</i> | Standards in MR angiography<br><i>H. Urbach</i>                            |
| <b>11.30-12.00</b>   | Vascular congenital malformations; classification<br><i>P. Lasjaunias</i> | Inherited white matter abnormalities<br><i>F. Barkhof</i>                | Posterior fossa malformations<br><i>P. Tortori-Donati</i>                                   | Supra- and infrahyoid head and neck spaces<br><i>J. Casselman</i>                           |  |
| <b>12.00-12.30</b>   | fMRI of the developing brain<br><i>E. Martin</i>                          | Grey matter: developmental cortical abnormalities<br><i>F. Barkhof</i>   | Anatomy and malformations of the orbit<br><i>P. Parizel</i>                                 | Nasal cavity and paranasal sinuses<br><i>J. Casselman</i>                                   |  |
| <b>12.30-13.30</b>   | L U N C H   |  |   |   |  |
| <b>13.30-14.30</b>   | Interventional Lectures   | Interventional Lectures  | Workshops on diagnostic and interventional neuroradiology<br>13.30 - 14.15<br>14.30 - 15.15 | Interventional Lectures   | Interventional Lectures  |
| <b>14.45-15.30</b><br><b>15.45-16.30</b><br><b>16.45-17.30</b> | Workshops on diagnostic and interventional neuroradiology                 | Workshops on diagnostic and interventional neuroradiology                |   | Workshops on diagnostic and interventional neuroradiology                                   | Examination 15.00 - 16.30  |
