Theoretical - Practical Course in Emergency Medicine

for Cardiologists, Internal Medicine and Diabetes Specialists.

During the ESH Congress, Doctors will be given the opportunity to attend an E.C.M. Course with a Patient "Simulator", the highly interactive human "dummy" which provides a complete training for the diagnosis and treatment of simulated patients in life-threatening conditions.

AIM OF THE COURSE

- Assimilate the therapeutic procedures by monitoring the "Simulator" life signs.
- Reduce mal practice risk and optimise patient security level.
- Update on guidelines and practical steps for the correct diagnosis of a life threatening condition both in hospital and outdoors.
- Through teamwork, improve techniques for cardiac resuscitation, and other simulated emergency situations with the "Simulator".

FOR INFORMATION AND REGISTRATION, PLEASE VISIT THE **RECORDATI** STAND.
